

Agreement No. 56D503
County of Santa Clara
Investigation of
Bridges on Local
County Roads

THIS AGREEMENT, made and entered into this 1st day of July, 1985 by and between the STATE OF CALIFORNIA, DEPARTMENT OF TRANSPORTATION, hereinafter referred to as "State", and the County of Santa Clara a political subdivision of the State of California acting by and through the Santa Clara County Transportation Agency hereinafter referred to as "County".

WITNESSETH

WHEREAS, bridges on all public roads are required to be inspected in accordance with the provisions of Subpart C, Chapter 1, Title 23, Code of Federal Regulations (National Bridge Inspection Standards); and,

WHEREAS, County has the capability to perform such inspections on bridges within its jurisdiction in accordance with Subpart C, Chapter 1, Title 23, Code of Federal Regulations; and,

WHEREAS, bridge inspections pursuant to the National Bridge Inspection Standards require, among other things, that each inspected bridge be rated as to its safe load carrying capacity; and,

6/13/85: 2 originals (one to be returned) to the Department of Transportation/Sally Barney,
1 cc to Transportation Agency/Transportation Development; 7/22/85 2 certified cc's
of Board Minutes to Sally Barney; 7/31/85 Original returned.

WHEREAS, pursuant to California Vehicle Code Sections 35750 and 35751, State may conduct engineering investigations to determine the maximum weight of vehicle and load which a bridge may safely sustain; and,

WHEREAS, information obtained by County as a result of its safety inspections of bridges under Subpart C, Chapter 1, Title 23, Code of Federal Regulations will enable State to meet its responsibilities under said Subpart C and under Vehicle Code Sections 35750 and 35751;

NOW THEREFORE, in consideration of the premises and mutual undertakings of the parties hereto, as hereinafter set forth, State and County agree as follows:

ARTICLE I - Statement of Work

County shall conduct engineering investigation and inspection of 85 bridges located on local roads under County's jurisdiction, which bridges are listed on the attached Exhibit "B" made a part of this agreement. The inspection shall consider structural condition including structural capacity, evaluation of components, materials and structural integrity of each bridge. This inspection shall be completed and documented within two years and 60 days of the Inspection Date listed on Exhibit B. The engineering investigation and inspection of each bridge shall be conducted, tabulated and recorded by County in accordance with Subpart C, Chapter 1, Title 23, Code of Federal Regulations including AASHTO "Manual for Maintenance Inspection of Bridges 1983" all of which are by reference made a part hereof.

County shall submit its findings on State Form DH-OS-M19 (Supplementary Bridge Report) or a reasonable facsimile. These reports shall be legible and complete and clearly show any changes in the condition of the structure from previous reports. Headings on the report shall be as shown on the attached Sample Report made a part hereof as Exhibit C.

ARTICLE II - Costs

Upon satisfactory completion of engineering investigation and inspection and submission of acceptable reports, State will pay County the lump sum of \$10,710.00 as full compensation for all work performed under this agreement including salaries, fringe benefits, travel costs and report preparation costs. The lump sum amount is subject to adjustment in the event of significant increases or decreases in the scope of the work. Any such adjustments will be set forth in a regularly executed and approved amendment to this agreement.

ARTICLE III - Method of Payment

State agrees to pay County the total amount due upon submission by County of all bridge reports and an invoice addressed to the state's contract administrator at the following address:

John A. Creed
Department of Transportation
Room 3120
1120 "N" Street
Sacramento, CA 95814

Interim payments may be made upon submission by County of a minimum of 25 bridge reports, along with a proper invoice. The amounts payable as progress payments will be determined by the ratio that the number of submitted reports bears to the total reports required, with such ratio applied to the total lump sum amount payable under the contract.

ARTICLE IV - Cost Limitation

Total amount payable by State to the County under this agreement shall not exceed \$10,710.00.

ARTICLE V - Subcontracting

County shall not be permitted to subcontract any portion of the work under this agreement without the express written consent of the State.

ARTICLE VI - Completion Date

This agreement shall terminate on completion of this project or one year from the date of this agreement whichever occurs first.

ARTICLE VII - Project Inspection

The Federal Highway Administration and the State may review and inspect the County's activities during the progress of the project.

ARTICLE VIII - Accounting Records

County shall maintain accounting records and supporting documents pertaining to costs incurred which records and documents shall be kept available for inspection and audit purposes by the authorized representatives of the State and the Federal Highway Administration during the contract period and thereafter for three years from the date of final payment of Federal funds hereunder.

ARTICLE IX - Ownership of Data

All data, maps, photographs, and other material collected or prepared under this agreement shall become the property of the County. Duplicate copies of such data shall be provided to the State upon request.

ARTICLE X - Agreement Termination

This agreement may be terminated by either party upon thirty days written notice to the other party hereto. All work performed pursuant to this agreement and prior to the date of termination may be claimed for reimbursement by County subject to the provisions of ARTICLES II, III, AND IV herein.

ARTICLE XI - Assignability

County shall not assign or transfer interest in this agreement without the prior written consent of the State.

ARTICLE XII - Amendment

It is mutually understood and agreed that no alteration or variation of the terms of this agreement, or any subcontract requiring the approval of the State shall be valid unless made in writing, signed by the parties hereto, and approved by all participating parties.

ARTICLE XIII - Equal Opportunity Assurance

During the performance of this agreement, the County agrees to comply with the attached Appendix A, relative to nondiscrimination on federally-assisted projects, which is incorporated into this agreement.

ARTICLE XIV - Indemnification

It is mutually agreed that neither State nor any officer or employee thereof shall be responsible for any damage or liability occurring by reason of anything done or omitted to be done by County or in connection with any work, authority or jurisdiction delegated to County under this agreement. It is also agreed that, pursuant to Government Code Section 895.4, County shall fully indemnify and hold STATE harmless from any liability imposed for injury (as defined by Government Code Section 810.8) occurring by reason of anything done or omitted to be done by County under or in connection with any work, authority or jurisdiction delegated to County under this agreement.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement in duplicate the day and year first above written.

"I hereby further certify that all conditions for exemptions have been complied with and this document is exempt from the Department of General Services approval."

Signed *Sally Barney*
SALLY BARNEY
DEPARTMENTAL
CONTRACT OFFICER

During the performance of this contract, the contractor, for itself, its assignees and successors in interest (hereinafter referred to as the "contractor") agrees as follows:

- (1) **Compliance with Regulations:** The contractor shall comply with regulations relative to Title VI (non-discrimination in federally-assisted programs of the Department of Transportation - Title 49 Code of Federal Regulations Part 21 - Effectuation of Title VI of the 1964 Civil Rights Act). Title VI provides that the recipients of federal-assistance will implement and maintain a policy of non-discrimination in which no person in the state of California shall, on the basis of race, color, national origin, religion, sex, age, disability, be excluded from participation in, denied the benefits of or subjected to discrimination under any program or activity by the recipients of federal assistance or their assignees and successors in interest.
- (2) **Non-discrimination:** The contractor, with regard to the work performed by it during the contract shall act in accordance with Title VI. Specifically, the contractor shall not discriminate on the basis of race, color, national origin, religion, sex, age, or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the U.S. DOT's Regulations, including employment practices when the contract covers a program whose goal is employment.
- (3) **Solicitations for Subcontracts, Including Procurements of Materials and Equipment:** In all solicitations, either by competitive bidding or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by the contractor of the contractor's obligations under this contract and the Regulations relative to non-discrimination on the grounds of race, color or national origin.
- (4) **Information and Reports:** The contractor shall provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the State Department of Transportation or the Federal Highway Administration to be pertinent to ascertain compliance with such Regulations or directives. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information, the contractor shall so certify to the State Department of Transportation, or the Federal Highway Administration as appropriate, and shall set forth what efforts it has made to obtain the information.
- (5) **Sanctions for Noncompliance:** In the event of the contractor's noncompliance with the non-discrimination provisions of this contract, the State Department of Transportation shall impose such contract sanctions as it or the Federal Highway Administration may determine to be appropriate, including, but not limited to:
 - (a) withholding of payments to the contractor under the contract until the contractor complies, and/or
 - (b) cancellation, termination or suspension of the contract, in whole or in part.
- (6) **Incorporation of Provisions:** The contractor shall include the provisions of paragraph (1) through (6) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations or directives issued pursuant thereto. The contractor will take such action with respect to any subcontractor or procurement as the State Department of Transportation or the Federal Highway Administration may direct as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the contractor may request the State Department of Transportation to enter into such litigation to protect the interest of the State, and, in addition, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Sub

FROM: SCOTTY A. BRUCE, TRANSPORTATION DEVELOPMENT

SUBJECT: COUNTY/STATE AGREEMENT RELATING TO INVESTIGATION OF BRIDGES ON COUNTY ROADS

RECOMMENDED ACTION:

Approve and execute the County/State Agreement relating to investigation of bridges on County roads.

FISCAL IMPLICATIONS:

Execution of the attached County/State Agreement will provide State/Federal funds, not to exceed \$10,710, to conduct an engineering investigation and evaluation of 85 bridges on Non Federal Aid County roads. No County matching funds are required. Sufficient funds will be budgeted in the 1985-86 County Road Fund Budget under line item 0023-6412-2892 Spot Safety Program.

REASONS FOR RECOMMENDATION:

Bridge Inventory, Inspection and Rating Program is a prerequisite for participation in the Federal Highway Bridge Replacement and Rehabilitation Program. It is also an excellent tool for prioritizing bridge maintenance improvements. The program requires biennial inspection, re-evaluation of conditions and rating of each County bridge in accordance with prescribed standards. In the past Caltrans has performed these functions. Caltrans staff is now planning to share these functions with the Cities and Counties. Federal financing is available.

This will also provide an opportunity to continuously monitor the Seismic Safety improvements made pursuant to Five-Year Seismic Safety Improvement Program Approved by the Board of Supervisors in April 1981.

DATE: May 28, 1985

TRANSIT DISTRICT BOARD AGENDA DATE:

COUNTY BOARD OF SUPERVISORS AGENDA DATE: June 11, 1985

TRANSPORTATION COMMISSION AGENDA DATE:

SUBJECT: COUNTY/STATE AGREEMENT RELATING TO INVESTIGATION
OF BRIDGES ON COUNTY ROADS

BACKGROUND:

The Federal-Aid Highway Act of 1968 established the National Bridge Inspection Standards in order to provide for the proper safety inspection of bridges on the Federal Highway System.

The Federal-Aid Highway Acts of 1970-76 authorized funds and established the Special Bridge Replacement Program to replace or reconstruct bridges which have become unsafe because of structural deficiencies, physical deterioration or functional obsolescence. The selection process for replacement is based upon data collected in accordance with the Federal Bridge Inspection Standards.

During 1979-80 the County performed the initial inventory, inspection and rating of the bridges on Non-Federal Aid roads under contract with Caltrans for \$40,000.

CONSEQUENCES OF NEGATIVE ACTION:

Federal Funds would not be made available to the County for this project and may adversely affect our ability to qualify for future Federal bridge replacement funds.

STEPS FOLLOWING APPROVAL:

1. Both original copies of the agreement are to be signed by the appropriate County official.
2. Transmit the original copy of each executed agreement with two certified copies of the Board of Supervisor's minutes authorizing execution of the agreement on behalf of the County to:

Department of Transportation
Division of Administrative Services
1120 N. Street, P.O. Box 1499
Sacramento, CA 95807

Attention: Sally Barney
Assistant Departmental Contracts Officer
